SUBJECT	CD mechanism extension jig

REF.No. :G - 99 - 060 - E0

DATE :10. DEC. 1999

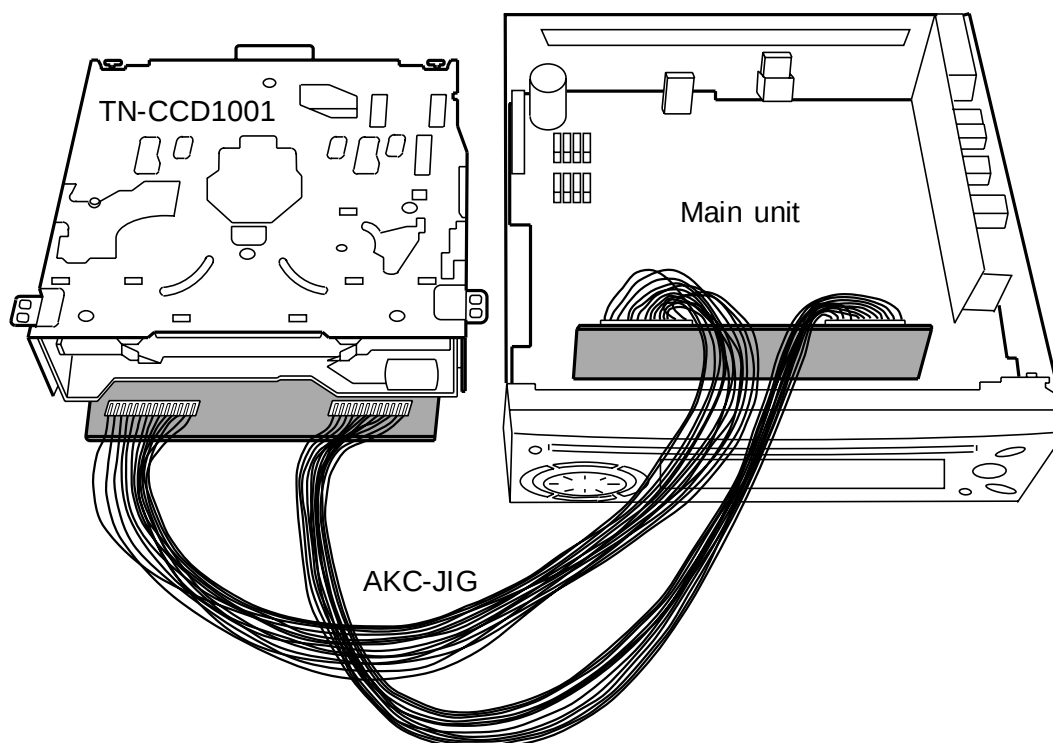

<CONTENTS>

AIWA is providing a CD mechanism extension jig for CAR CD RECEIVER units.

Use method of extension jig:

The extension jig is used to verify operation of the CD mechanism (TN-CCD1001).

It shall be connected between the P.W.B. MAIN and the CD mechanism. (See the figure below.)

<NOTE>

This jig is used for TN-CCD1001 only.
